### Finding the Truth

John 8:30-47 CSB

The scriptures are part of how we use communication to cultivate our relationship with Jesus.

The nature of the scriptures:

The scriptures are the Word of God.

The scriptures contain the truth.

The need for the scriptures:

We need the scriptures to set us free from deception.

When faced with what we feel is true versus what the scriptures say is true we have a choice between a lie and the truth.

The purpose of the scriptures:

The scriptures are meant to point us to Jesus.

We believe the truth is a person, not an idea.
