Joy is a state of existence that comes from an awareness of God's love for us.

Jesus provides joy through His:

Isaiah 9:1-7

1. Message

God's grace triumphs over our failures.

This allows us to release and overcome our failures.

2. Moment

Our faith is a historical faith. What we believe, actually happened.

Jesus is not too good to be true.

3. Movement

Jesus was the catalyst that started the world on a trajectory that cannot change.

Even though we do not experience this fully now, we know it will be.

4. Multiplication

The joy of Jesus should be increasing in our lives.

If you need more joy:

1. Find where you are getting it from.
2. Ask for it.
3. Share it.
