What is meant for evil can be used by God for good.

The victory of the gospel

Nothing can stop the gospel.

The guaranteed advance of the gospel:

Does not guarantee good circumstances.

Means that bad circumstances do not necessarily mean failure.

Gives us something around which to center our lives.

The victory of the gospel results in the sharing of the gospel.

All of us can and should share the gospel with those around us.

The main question being asked right now is not if Jesus is true but if He is good and beautiful.

We can share the Gospel by:

Telling

Living

Inviting

The victory of the gospel results in opportunity for the gospel.

Anything that happens in our lives, no matter how dark, full of suffering, or evil, can be an opportunity for the gospel to advance.
