

7-6-25 DENNIS weekly report

Greetings my brothers and sisters!

Below is another astounding report from Pastor Dennis in Kenya telling us about the results of both the special broadcast for the mothers in Iran and also the regular radio broadcast on Saturday night 4th July. The results are from all of Africa and the Middle East. So enjoy.

And now in Dennis' words --

"Praise the Lord daddy, we had a very blessed Sunday with thousands of healings and raising of the death reported from all our 5 locations in kisii and we also had thousands of healings reported from all our 47 counties of kenya. We also had millions of healings from other african countries and also from the Middle East. Many reported healings from stage 4 cancers, diabetes, malaria, body pains, typhoid, ulcers, stomach tumors, HIV, measles, tuberculosis, Diarrhoea, pneumonia, allergies, cholera, foot and mouth disease, and many others.

RAISING OF THE DEAD

Raising of the death was reported from all our 47 counties of kenya, mostly those who died during maandamano of last year. Many families in nairobi, kisumu, and mombasa were happy to have their loved ones who died a year ago being reunited with them. I received hundreds of calls from families who expressed their happiness to have their loved once back to life. I recorded some of them, and I will share the recordings with you.

MAANDAMANO

We had 12 Catholic priests who invited me to various places, and I personally witnessed all the 12 people who had died last year in maandamano come back to life. We were just placing the picture on the graves, and a few minutes after we left, we had calls from their family members that they had been raised. We had a case where a only son of a very powerful SDA pastor who died last year during maandamano and he came to the children home and requested for the picture and when he placed the picture on top of the grave of his son, at night he heard someone knocking the door and when he asked who he was he found that he was his son who has been raised. He called with great joy and informed me about it, and that same morning, he called all his friends, and they celebrated and thanked the Lord for the raising of his only son.

We had so many chiefs, assistant chiefs, clan elders, and several government officials who called and shared with us how their loved ones who died last year and they were very joyful to see them back to life. On Saturday night, we had 67 people who were raised from the death that had died last year during maandamano. We had a total of 213 who were raised from the death of all the 47 counties of kenya. We also had those who were raised from the death that had died for a week, 4 days, 2 days and 3 days and in total we had 623 people raised from the death in kenya, 12 from uganda, 47 from tanzania, 78 from burundi, 13 from Ethiopia, 16 from Algeria, 9 from Zimbabwe, 17 from Chad, 8 from Ghana, and 19 from south africa. Am still

receiving calls, and by tomorrow, we shall be having a final list of those who have been raised from the death from kenya and africa.

SPECIAL BROADCAST FOR IRAN

We had shared our special broadcast with the people in iran, and we had a high number of mothers who were involved in peace initiatives. They said they were blessed with our message and they were so happy to have it in their language. They had printed the broadcast and organised meetings across iran. They walked major towns in iran and gave out the broadcast to people. After they had done that, their foreign minister announced that their leaders who had previously been not ready for peace talks agreed to have peace talks and end ceasefire. The mothers say that this could not have happened if it wasn't the special broadcast.

We also had thousands of mothers who held peace meetings and shared our special broadcasts with people in the Middle East. Many children who used to have weekly training on how to fight have shown no interest in the training. We had a total of 2,796,809 mothers who were involved both in iran and other Middle Eastern countries. They said that our messages are full of love, unlike other messages from other preachers that condemn them.

THE PICTURE

Yes, Daddy, there were so many people who requested the picture from other african countries. The people used the picture, and thousands were healed from tanzania, Ethiopia, Burundi, Rwanda, somalia, Uganda, Sudan, South Sudan, South africa, Zimbabwe, Chad ect. Also, I received calls from the above countries where they use the picture to raise death, and we had 5,976, 697 healings via the picture, and 236 who were raised from the death via the picture. Amen

Pastor Wayne's DREAM

Yes daddy, what you dreamed is true because this week on Wednesday, the local news paper and some tv sations have requested me for an interview on the healings and raising of the death and I strongly believe that after the interview, they will publish it. Amen

WATER MIRACLES

We had hundreds of people from Turkana, mandera, Marsabit, and wajir who had placed the picture on the ground, and they had pure water for drinking. The counties are known as the Arid and semi- Arid lands who are the driest areas in kenya and when they placed the picture on the ground they had clean, soft healing water and those that drank the water were instantly healed from various diseases including hiv. Thousands were mostly healed from Hiv when they drank the water

CONVERSIONS

We had thousands of Muslims who were converted. From african Islamic countries and the Middle East, we had 4,754,803 Muslims who were converted. Amen
