

APP PROGRAM GROWING!

There are some changes coming to the way we schedule volunteers and also communicate things like snow cancellations, prayer request, and events. Keystone Church will be relying on the app more for these things. So if you have not downloaded it for your phone or tablet, please do that today!

GROUPS

We will be taking a break from Groups for the rest of 2019. However, there is a lot that needs done around the building. Why not consider donating an hour of your time and just seeing how you can help with general clean up or maintenance during this break? Just talk to Pastor Nate if you would be able to volunteer some times.

FINANCIAL PEACE UNIVERSITY

Going into debt is one of the easiest things that you can do, while getting out of debt is one of the hardest things you can do. Wouldn't it be great if there was a biblical blueprint that would help us know what the wisest way to walk through our finances would be? That is the point of FPU, Dave Ramsey's biblical approach to how to handle finances and debt. We are offering this class in the month of February as a small group topic. So if you are tired of living paycheck to paycheck, be watching for this class.

Here we go! It is time to start setting those personal goals and plans for the new year. Granted, many of them will be bailed on by next month and forgotten soon after that, but for now, I always think it is better to aim at improving something in your life. In 2020, as a church we want to aim at a goal that moves us all together in our relationships with God. The problem is, that we have limits for what we are willing to do for God.

I am not saying you would verbalize it like that, but you do have your "no." It feels safe to keep that, because what if we were asked to do something crazy and far fetched? But don't you understand that God is a Good Father and desires only the absolute best for us, wanting us to thrive and have life "more abundantly?" That is what Jesus said! So the safety net is not needed, because God is after our best interest and knows us more and better than anyone else around us. Not only that, He created us! So He understands on levels that we could not imagine. So why not join us in the weeks to come as we get ready to explore what it means to say, "Yes, God!"
