

Creation

Vs.

The Unproven Theory of Evolution

Day 2

Read Genesis 1:6-8

“Then God said: “Let there be a firmament in the midst of the waters and let it divide the waters from the waters. Thus, God made the firmament and divided the waters which were under the firmament from the waters which were above the firmament; and it was so. And God called the firmament heaven. So, the evening and the morning were the second day.”

Section 1. What is water?

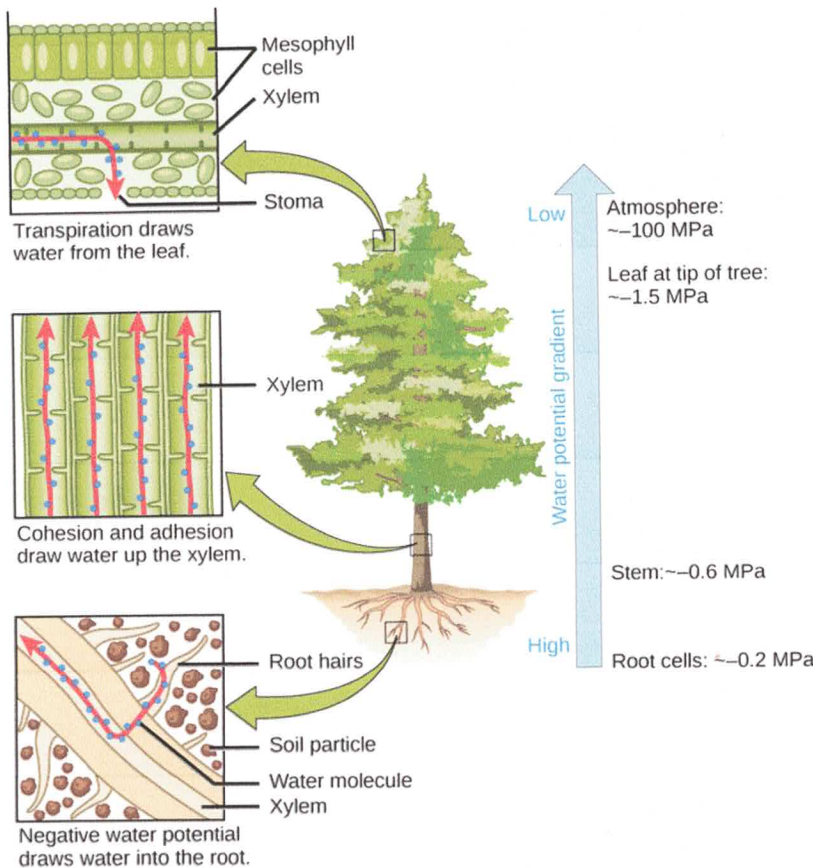

- How did God separate it and why?
- What Forms does water come in?
- Can water defy gravity?

Where did all this water come from? Another world?

Section 2. The hydraulic cycle

- Evaporation
- Condensation
- Precipitation
- Runoff or Collection

Oceans below and atmospheric oceans above. There is a lot to say about our humble friend **H₂O**... because there would be virtually **No life** on earth without it. **Water does defy gravity!**

Section 3

- **Water is the most powerful natural force on earth.** Water can move mountains.
- 71% of earth's surface is water.
- Human bodies are roughly 50-60% water
- Newborn babies are 93% water!
- Where does the salt come from?

Section 4

How does Jesus use water to in His ministry?

- Jesus turns water into wine (John 2:1-11)
- Woman at the well (John 4:1-29)
- Jesus walking on the water (Matthew 14:22-33)
- Jesus calming the storm (Mark 4:35-41)
- Healing at Bethesda (John 5:1-9)
- The baptism of Jesus (Matthew 3:13-17)
- Pierced side water and blood (John 19:34)

And of course there was the great flood of judgment.

Section 5. The recent upheaval

Mount St. Helen 1980

- The explosion, how powerful was it?
- The little Grand Canyon
- Tree matting
- Topography reconstruction
- Radio metric dating

Mount St. Helen's before and after the eruption.
