**The Gap Theory- Day Age Theory – Progressive Creation**

Section 2. The Big Flip/Flop. The reality of the lack of reality regarding the fossils used to build the model of the evolutionary progression of man ...

- **Neanderthal Man** – 150 years ago was thought to be an Ape-man. Later realized to be a human stooped over by disease.
- **Ramapithecus** – Presumed to be the ancestor of humans, turned out to be an extinct type of Orangutan.

- **Pittdown Man**- A hoax based on a human skull cap and the jaw of an orangutan. For 40 years it was pitched as a missing link.
- **Nebraska man**- Based on a single tooth of a type of pig now only living in Paraguay.
- **Peking Man** – Was once presented as an ape-man but has since been reclassified as human.
- **Australopithecus Afarensis** – More commonly referred to as “LUCY.” Claiming to be a human ancestor is now classified as a **pygmy chimpanzee**.

There is NO fossil evidence that man is the product of evolution.

The missing links are still missing because they simply do not exist. The Bible clearly states, “Then the Lord God formed man of the dust of the ground and breathed into his nostrils the breath of life; and man became a living being.” (Genesis 2:7)

Johannes Kepler, said, “***Science is thinking God’s thoughts after Him.***”

Charles Darwin said, “If it could be demonstrated that any complex organ existed, which could not possibly have been formed by numerous successive, slight modifications, my theory would absolutely break down.”

A single living cell is more complex than Charles Darwin could have imagined.

**Irreducible simplicity** – Flagellum the mouse trap of the molecular world!

If you don't believe in a creator, you will have to believe at least four miracles...

1. The origin of the universe: From nothing to everything!
2. The fine-tuning of laws, perfectly balanced for life!
3. The origin of life: Life from non-life!
4. The DNA code: Complex information system!

Dr. Randy L. Wysong observes... Evolution is not a formulation of true scientific methods. They (scientists) realize that, in effect, evolution means the initial formation of unknown organisms from unknown chemicals, produced in an atmosphere of unknown composition under unknown conditions, which organisms climbed an unknown evolutionary ladder by an unknown process leaving unknown evidence.
