

A close-up photograph of a person's hands holding a thin stream of water. The water is being held between the fingers, creating a delicate, vertical column. The background is softly blurred, showing what appears to be a person's face and hair, suggesting a contemplative or spiritual moment. The lighting is warm and natural, highlighting the texture of the skin and the clarity of the water.

What is TRUTH?

The Truth Is, Biology Is Theology

Genesis 1:27

What is TRUTH?

1. God created us male and female. There's no other option and no choice in the matter. (Genesis 1:27)
 - There are a few exceptions, but hermaphroditism and Klinefelter Syndrome (XXY) affect only 1.7% of the world's population.
 - Inclinations we may be born with do not give us permission to sin.
 - God made male and female with such a complementary design.
 - Jesus affirmed this truth: Matthew 19:4-5

What is TRUTH?

2. The Fall has led to a distortion and rejection of Truth, not a redefinition of it. (Romans 1:18-27)

- Sin distorts God's original design.
- We can accept the terminology without accepting the world's attempt to redefine truth.

What is TRUTH?

3. We must respond to Truth, with Truth, and for Truth, all in compassion. (Colossians 3:12-14)

- We are accountable to Truth so we must respond to it.
- We must live our lives according to Truth and respond to others with Truth.
- When the rest of the world forsakes truth, will we respond for the glory and preservation of Truth?
- Even when it is necessary to strongly disagree with others, all of our responses must be saturated with compassion and grace.
