

1 Corinthians 14:6-13. Zealous for an Excellent Church

Speaking in tongues in the church without interpretation does not benefit the church in the same way as teaching does.

Speaking in tongues in the church without interpretation does not benefit the church in the same way as sounds are not necessarily music.

Speaking in tongues in the church without interpretation does not benefit the church because it does not increase love and unity in Christ among the members.

John 13:35
Colossians 3:11

Speaking in tongues in the church without interpretation does not benefit the church by causing it to excel.
