All right, you ready? Say Are you ready for the big, you ready for the big, say Bring it on, bring it on, bring it on, bring it on. The biggest come in the big, the big remember big as large in size and quantity, significant important, my goodness, grand scale for grand life from a grand God somebody say big you've got to get last night's teaching big big. God has the big for you my definition of big is blessings and God. In other words, I believe blessings is not a house is not a check. Blessings is an empowerment to prosper and to succeed in every area of your life. And God has a grand scale life for a grand scale moment to be released right now to you. Somebody say bring all the big. Bring on the go ahead and turn with me if you have your Bible to the book of Hebrews. And I'm going to teach you line upon line because here, here's what you have to know when this hits your spirit. Remember, God gives you that portrait, he shows you a new picture, you're going to get it that he has engineered You, God has engineered you to be a success. Man, when that hits your spirit, you're going to stop living beneath the privileges that he paid the price for God who is the creator, he's the manufacture We are the product. You don't have to live low life with your head hanging down. God has a big life for you. God has good things for you. You are engineer you are sentence to succeed, you better turn to somebody say I am sentenced to success. Don't judge that person you're sitting next to right now. Don't look at their shoes and make a determination over them. That's a temporary situation. That's not their permanent condition. They are sentenced to succeed.

And when man gives up on you, God simply getting started with you see people called me trailer trash. But I figured something out. God's in the recycling business. You might call it trash, but God calls it treasure. Hey, hey, hey. And mediocrity gets no attention. I mean, absolutely none. And God wants to show off in your life. He wants to show you that he's not a little league God, that he's not a mediocre God, that he's not a small time God. But he is a great big God that wants to do great big things in your life. Somebody say bring on the bit. He wants to show you and he's asking you, is there anything too difficult for me? I know that looks like a mountain in your life. I'm not saying there's not struggle, I'm not telling you that life will throw you a curveball because it will. But after you get enough of them, you'll get your RBI up because you'll learn to take your batting average two places because God will give you a swing that nobody else has come up big, better, better. Don't mess with me. I've got a swing like you wouldn't believe throw me a curveball, but I'm gonna hit a Grand Slam. Because if God be for me, then who can be against me. So he has the big for you. It has already been determined. But in order for it to be released in your life, you have to clear the clutter. You have to get rid of the noise so you can fine tune in to what God has for you. There's some clutter in some people's lives turn to your neighbor say she must be talking to you right now. Some of you got some clutter, you've got baggage, you've got some parasites, some leeches that are sucking the life and draining, draining things out of you. But you're getting ready to clear the clutter. And I want you to see it. I want you to see it from and I want you to put on your spiritual eyes. I want you to see beyond your situation. Are you ready? Can you see it? Can you go there with God right now, I want you to see your life worry free. Come on, bring it on down. No anxiety, you're not you're not simply getting sleep you're getting rest at night, because some of you are going to sleep but you're waking up tired. Because you're so full of anxiety and you're worrying and paying interest on something that you you might not ever have ownership but that worry is about to leave your life and you're gonna live dig somebody pull it down, safe is coming to me no fear, no fear. Come on, you're gonna pull it down. No fear, you're not going to be afraid. You're not going to fear man's opinion. You're not going to see you're going for your dream. You're not going to have here's my acronym false evidence appearing real. No fear, you're going to have a fear free life. You better pull the big down right now. Can you see it? You're going to have stamina, you're going to have energy, you're going to be like Clark Kent that goes in a phone booth and comes out Superman. You're gonna say I can do all things. Somebody slap your neighbor say you really don't have a clue who you're sitting next to. You're about to get it. Can you see it? Can you see the big Come on, you're going to have clarity, you're going to have no more confusion, but clarity, you're going to make the right decisions because decisions are going to determine your destiny. You're going to have love and value and you're going to walk in your purpose and you're going to be fulfilled Can you see it the big you better pull it down right now I can see it. Can you go there with me. You're not going to shrink from the bottom of the barrel you're not going to live from beneath but you're going to be a

blessing. You're going to live from above you're not going to be that person that retires at \$10,000 relying on social security but you're going to be blessed to be a blessing. You're not gonna wait around for somebody to give you a big break. You're about to give yourself a big break because you got a big god this opening a big door that angels have already been released somebody suck your neighbor one more time, say biggest coming biggest coming biggest coming.

06:00

You better stand up with me. Let's go to Hebrews chapter

Paula White-Cain 06:03

12. It's my custom to stay in thing. This is spiritual calisthenics. 12. Hebrews chapter 12 verse one, just one little verse, just one, just one little verse and it's going to go really helping you ready? Hebrews chapter 12, verse one, if you're not there, just look in your index, and figure out its own page 245. See, people think it's not spiritual near over there and Malika St. Malachi, no, just just Hebrews chapter 12 verse one, Let's read it together. It says, Wherefore See, we also are compact about was so great a cloud of witnesses. Here it is, let us lay aside every way. How many of you have some weights that need to be released out of your life? Let us lay aside every weight and the sin, anything that's causing you to miss the mark. words so easily beset us, here's the reason and let us run. You're getting ready to run you've been dragging in life, but you're getting ready to run. You're getting ready to soar. You're getting ready to move into the big let us run with patience the race that is set before us. Will you put your Bible down grab the hand of that world changer, that history maker, that legacy lever that you are sitting next to you said, Paul, I didn't know I so privileged to be next to somebody so honorable. Yeah, God has raised him up for such a time as this, you're holding the hand of a miracle had the enemy at his way, he would have wiped that person out. They should have been locked up in a Psychiatric Center buried Six Feet Under no breath in their body. But the devil is a liar. Come on the best is not behind you. The best is ahead of you squeeze that hand, you're holding a miracle. God, I thank you for saturating this place from center to circumference every way that holding us back every way that is trying to keep us and hindering us from living the big life that you've determined it will be broken today, wisdom will be released direction will be given clarity will come I thank you in advance for the supernatural showing up in this place that you do what only you can do heal broken hearts, bring restoration, release your power in your provision through your word, either create either Claire and it is established and everybody said, turn to somebody say I'm getting ready for the big. You may be seated. Here it is, in order to run with the big you have to clear the clutter. And let me show you what clever means. clutter is defined as a confused, crowded,

disordered state or collection means literally to throw to have no order to dis arrange. And God is a God of arrangement. God is a God of order line upon line. It comes from an old English word clot, which is where we get blood clot. And you know, when you have a blood clot, it begins to block your arteries. And if that blood clot begins to block your arteries enough, then eventually it will steal the life from you. And many of you are experiencing a life draining issue. Life is being stolen from you because there's a blood clot. There's clutter, there's a disarray, judgment and disorder, and clever creates chaos. And the reason that that's so confusing is James chapter three verse 16 says where there's envy and strife, which means a fraction are pulling away, then there is confusion. And the word confusion means disorder. So whenever there's clutter there disorder, and here's the problem with this, it opens the door to every evil work. And so now you are bombarded with all this baggage, you feel the sense of overwhelming, you feel the sense of how can I really see my dream come to pass life is overwhelming. And I've been there where you weren't just hit with one thing, but you were overwhelmed. And I mean, I wasn't there for a day. It's okay to be overwhelmed for a day. It's even okay to be overwhelmed for a month. But what happens when you stay in a state of overwhelm it where life is suffocating you and you cannot read? I remember saying there's an elephant on my chest God and nobody can see they walk in and they came see the elephant sitting on me and is suffocating me. But I'm a journal or I write because I think it's so important. And I remember writing about a year later my elephant went on a diet. You see God is so faithful. You'll put your elephant on a diet with the right information. Somebody say my elephants going on a diet. Come on, bring it on in the biggest coming to you the big because if your elephant doesn't know in our diet and you stay overwhelmed, it will eventually lead to weariness. And weariness is where you lose the sense of pleasure and you become a zombie in life. Just going to work. Just going through the routine. lost the passion in your relationship, lost the zeal and the zest for life. Don't even know what the purpose of existence is. And what happens when you get weary is you will become weak. And here's the danger and weakness. Second Kings 19 three says the children of Israel, it was time How many of you know God has a time for you? He has a setup. He has a divine appointment. He has a set time for you. You don't know you could be in famine today. And God just blink his eyes, snap his finger and it'd be your time. I'll never forget November the 18th 1995. I said Reggie scoreboards church in Lakeland, Florida, they were showing the video and it was boring. Everybody was sitting there falling asleep, I begin to cry and we and the man of God came over and said this day. Why? Because it was my set time on November the 18th 1995. He said this day, God removes every obstacle and Hendrix that is held the harvest of God back in three months, I'd never preached a public sermon, I'd never declared the word of the Lord. I was just a young girl in the inner city telling boys and girls that God loved them, giving people hope, cleaning bathrooms, I was just mowing grass, doing whatever I could do to serve the community serve God. And on November the 18 1995. God said this day, every obstacle is removed. And in three months, I went

around the world three times face to face with over a million people and God launched a worldwide ministry. You see, this could be your biggest day your set mom, somebody say I have a set time, say bring on the big. I told you heavens having conversation about you. God's been speaking over you. And today might be your day for release. Today might be the day the phone call you've been believing for today, you might go down to the Ross goes and get yourself your waffles and chicken and meat your bow as I'm gonna get you out on time to get to Roscoe. But you just don't know you might come on Satan dag.

13:29

Oh, I just had a moment.

Paula White-Cain 13:33

It says when you go to give birth, you don't have the strength to bring it for. See, when there's too much clutter, it weakens you. And even though God has a set time, you won't have the strength to give birth to what God's put on the inside. So you miss it. And I don't like missing things I hate missing it. I don't ever miss my kids birthday. I've never missed one of their first games or their first performance. My youngest son is 20. Now and I never miss out on any of their things. I don't miss a sale at Saks Come on, I don't like missing anything. And I'm certainly not going to miss a big moment that God has for me. And so if you don't clear the clutter, you miss the moment turn to somebody say she's talking to you right now. So you have to make a conscious decision to get rid of it. Watch this to get rid of what you do not want. In order to make room for what you do want. You have to get rid of what you do not want in order to make room for what you do want. Because life has a way of piling things on us that we weren't prepared for. And when there's too much clutter, it weighs you down, like an airplane that wants to take off with too much baggage. If it's overloaded, it will crash. And some of you have been called to soar not some you all have you been called the SOAR. Look at somebody say I'm getting ready to soar. He says in Isaiah 40 that you shall mount up with wings as Eagles Come on. Eagles go on hikes that nobody else can go. You are an eagle, you are champion. You're a world changer. You are history maker. I love he goes I don't have time to teach you on that. But they will soar. But if you have too much baggage, you don't have the ability to fly in life. And here's what spiritual clutter is. Let me give you a clear definition so we can get rid of it. Spiritual clutter, you might want to look up here are issues mindsets, emotions, past history and habits that you harbor and hold in your soul self that make you unable watch this to nurture your purpose in life. So what you holding on to that excess weight, that clutter that makes you unable to nurture your purpose, you have a purpose in life. That's why please yes is chapter three, verse six says to everything, there is a time, there is a time to get and there is a time to loose, there is a time to keep and there is a time to cast away, you have to

start making a decision today for the big to come in your life, to sort through the belongings to sort through the issues and get rid of some things that you've been holding on to that are weighing you down and will ultimately drain you of the life. Things that keep holding you back. Think about what your life is going to be like when you're free, free from all that excessive baggage. And God has a principle to free you is called leave and cleave everybody say leave and cleave. You see God says in order to gain the big you have to leave the little you have to let go of some things in your life. But not just to live in suspension when you leave what gives you the ability to walk away from something is knowing there's something better before you knowing God has something greater in your future than what you're letting go of your past and just because it's familiar doesn't mean it's good for you. You paint fear what you don't know yet because you're about to see that there are so much greater things ahead of you than there ever was behind you. I never forget I used to think tuna in a can was really good. I did I thought man I thought me this so good this good until I had real sushi. I didn't know because if you've never if you've never been exposed or seen or I never forget my first time eating out I went to the big Waffle House. I their chili. I said this the best chili I've ever had. That's horrific stuff. I don't mean anything against Waffle House. But I didn't know that there was better. And so sometimes we don't know better because we haven't tasted better because we keep holding on the less I told you last night The reason you keep holding on to Johnny is because you didn't meet Freddie yet. So you think john is the best thing that ever happened? Somebody slap your neighbor say she's talking to you right now. Have you ever done that? Come on? Have you ever held on to something that doesn't fit your life anymore? Oh, I know none of you ladies are or men have ever done that but you remember when you used to get those size two jeans Come on, you know, remember those that they've been looking cute and hot you were 13 but you remember you're you're you're 43 now but you still have them come on remember those you Do you still have the the tear from being prom queen to but we got some dimples and some cellulite and some sagging going south now but come on, you still got holding on to those jeans and you thinking I'm gonna fit there. I'm gonna get back. I'm gonna get back into my normal four babies later, stretch marks cut from from north to south and east, the West. But I'm getting back in these jeans. And you lay down on the on the bench on the own y'all how you lay down on the bed, and you go to

19:17

put them on

Paula White-Cain 19:18

and they don't even go over your ankle. I mean, your big toe won't make it through. But to hold on your car one day and get back in Come on one. How many you know, I know there's a pair of jeans in your ages. I know I know. And you keep trying. And you even get somebody to help you to force thing you say you call up your girl for you just come over, I can get them off. You see if I can lay down you can zip them up, come on. And they aren't over you're fine. You're holding on to those size too. Because Someday Someday and you know those things, they are not coming back anyway. And you know what in some day, because your size 14 you're living in a fantasize past. Holding on to things that don't fit you you know how you hold on to those jeans. You know how you've been holding on to Bobby, I mean your boyfriend you know, I mean, you've been holding on to that guy that doesn't celebrate you and treat. I didn't mean to talk about him. I'm interesting with the jeans, I didn't mean to talk about you holding on to that guy. And I know you know you keep holding on to that dead end job that doesn't fit you saying one day they're going to promote me and they bypassed you seven times and then you trying to squeeze back in and you just do anything. Anything. Anything and you keep holding on that job for gold watch honey, God has such a big for you, you'll be able to buy your own watch for one day that you keep holding on. Somebody said you got a letting go.

21:00

You stop harping on the

Paula White-Cain 21:01

things that don't fit, and you start picking up things. And you know that the reason there's expansion come because you grown Come on, you've grown in wisdom. You've grown in favor, you've grown in maturity, and trying to fit in something is trying to force a part of your life that no longer is it doesn't fit. So don't force it because God has big for you. And big is better. You wear these thing you don't look bad in that new job. You don't look good with that bow as on your

21:37

cute, those jeans.

Paula White-Cain 21:38

Come on God has good for you.

21:40

He has big for you that

Paula White-Cain 21:42

he has great for you. Big is coming. Somebody said Bring

21:46

it on, bring it on.

21:52

Gotta let go of some things.

Paula White-Cain 21:55

You hold on to 1984 Endless Love Blue Lagoon. He's married now with three kids, he's not going to leave her and marry you. It's 22 years later, let it go. Somebody say let it go. Are you going back to school and I believe in education, but you're going back to school for your fifth degree. Because your dad said you were stupid. And so now you keep trying to prove to yourself I'm significant. I'm not stupid. But someday you stop being a student and you let it go. Because it doesn't matter what he said, you go out there and you find your passion and you fulfill your purpose. Somebody said, let it go. Come on, bring on the big bring on the big bring on the big Come on.

22:44

I don't

Paula White-Cain 22:45

watch a whole lot of TV. But occasionally I'll catch that TLC. I like the Learning Channel. And they have a show on their home renovations. And on that home renovation. I just sit there amazed. Because Tim, what happens happens is they go in these house and they're going to renovate the whole thing and when they go to renovate this house. And one of the things that happens on this home renovations, I'll just hang out with me for a minute. One of the things that they do is they start renovating, they tell the person you can hold

on to one item one thing, and and that is always an ugly thing like an old painting of Elvis. I mean, it's always something really crazy. And so they hold on to that one thing, and they do all these beautiful renovations. And then they come and they give them a box. And they said okay, now you can trade it. You can either keep this Elvis or painting. Or you can trade it for what's in the box. And you know, 90% of the time, people hold on to that Elvis old painting. And I asked myself, Why in the world? Are you holding on to Elvis? See, y'all have it over your fireplace too. And you moved out of the trailer. And now you're in the mansion and Elvis went with you. And I think there are two reasons. Number one, because it's familiar. And we hold on to things that are familiar, even though they're not the big. And number two, you see God always called you out of your comfort zone when he calls you into the big and number two. This is the bigger one watch. We hate to admit our mistakes. It's difficult to say, you know, I saw some signs I shouldn't have married that person. I shouldn't have been dating him. And but you keep holding on I I should have sent out those wedding invitations. And even though the wedding still six months away, I know it's not the big but I'm too embarrassed because the invitations already been sent. So I'm a hold on to something and compromise. And sometimes we hold on to things because we're afraid to admit we may have bought some the most hideous, ugliest outfits. And I thought was I had an insane moment. I mean, I was demon possessed when I shopping for that. I look like Bozo the Clown. And I wore and no I thought nobody really loves me. Then I went into pity party. I said cuz my friends let me look like that. But see, the truth was, I was too embarrassed to admit to myself that I wasn't disciplined at that moment. And I went out and saw something that had a designer tag on sell half price and still look like bozos outfit. And I bought into it anyway. And sometimes we have a difficult time of letting go of things that don't fit in our life. And here's what happens. It creates clutter, and clutter equals junk. And many of us have junk, too much noise, too much junk in our life, cluttering our spirit, where we don't have a clear connection. Watch this. Anything that crowds your life and I'm almost through is called junk. Anything that crowds your life, and it's taking you away from nurturing your purpose is called junk. Now I know some ladies will relate to this. Have you ever gone to your calls. And and this closet I'm going to use like it's a temple. This is you see, this is you right here, this closet is you that your temple and it looks pretty good on the outside, it's varnished, and it's looking pretty on the outside and see some your life on the outside is looking pretty good. It's looking pretty good. But what happens when you get clutter in your life, you get junk, see what's in you will eventually come out of you. When those doors get over. And you go on the inside is a bunch of clutter. Let me show you what clutter clutter equals junk. Now I'm sure there's something valuable in this closet, I'm sure. I'm sure that somewhere, you know, there's valuable. And that's the thing you have to know there's value on the inside of you. But the junk, the clutter is not giving you the ability to find the real treasure. So you're building a life that's not authentic to who you really are. Because the real you is a treasure deep on the inside of this earthen vessel that you have something that nobody else has. You are

designers original, but see life has cluttered you and you've got all this junk that you can even find your real gifting and your real strength. So now you're just going through the motions. But I bet if you search hard enough, you found she found it, you find something valuable in the midst of all the three. In the midst of all there's treasure and see people will try to put a thrift store top on you because they're intimidated often by your treasure. My that's a whole nother message on a whole nother day. Or they got so much junk in their own life. How can the blind set the blind free, you can take somebody that you've never been herself. So many people are falling blind to people that can't even discern their own treasure. And so so you need a coach in your life to help you see the treasure because God has the big for you. And watch not only not only is there something valuable in there, that if your life doesn't get clutter free, you cannot locate it. So clutter diminishes clarity. But the other thing is have you ever gone and I know some ladies are with me on this to find an outfit because you have an appointment. And that appointment was 10am. And you go to get an outfit and you can't find it. I mean, you're getting frenzied now and all stressed out now because you can't find that outfit. And now it's making you late. Come on, I'm somewhere and time, clutter is robbing time from you. And James chapter four, verse 14 says Life is like a vapor. And let me tell you one thing we all have a limitation on even though there are no limits. And God, you do have a certain amount of time, you do have limited time, you're not going to have more than 24 hours a day, you have a set time that's assigned for your purpose in life. And it's never too late. But you've got to decide this is my time. I'm not going to wait 20 years from now to begin to see my dream realized I'm getting rid of the clutter so the big can come in. Because if I do not have time on my side, I'll miss my appointment, you better hear this because it will drain then not only that, it drains your creativity with too much clutter, it drains your energy G and your life becomes mismatch. And sometimes watch when you're in a bunch of clutter, you will grab anything so you'd be looking like a fool. You'd be looking like a purple and a red you'll be looking all crazy and you'll go out mismatch and your life is not matching up to who you really are on the inside because of all the clutter but we're getting ready to clear the clutter. We're getting ready to move it out. We're getting ready to get rid of

30:27

his

Paula White-Cain 30:28

junk. Somebody say is junk, but I'm getting ready to organize the Mitch I'm getting ready to release the big somebody say Teach me how Paula Teach me how because anything that clutters Your life is junk. And anything that crowds you and keeps you from edifying, enriching your spirit and keeping you from the big is junk. But somebody said clear the

clutter. Here's how you do it. You say how do I move things, this is how you move it. Number one is starts by believing the big is going to arrive. The big is going to arrive. Remember you have to leave and cleave. You have to let go in order to embrace and this takes faith when you begin to believe that God has already sent the big that heaven has had a conversation about you that God is sending a package that delay does not mean denial and that big has your name on it. Then you begin to activate it by faith. Romans chapter 10. Verse 17 says Faith cometh by hearing and hearing by the Word of God. Every time I open my mouth, I'm spewing seed, I'm giving for faith to tell somebody where you are is not where you're going to finish being God's putting a word on the inside of you. That is activating something on the inside of you. That is illuminating you giving you a picture that you are destined for greatness, you are destined for bigness. Here's the thing you've got to know when God gives you a word, he watches over to perform it. God is a seer. He makes sure that his word gets performed. He makes sure that the end that you see from the beginning comes to pass. That's why for Libyans, one six says I am confident in this one thing I'm telling you, my friends and family, I didn't know a lot. I still mess up my words. I talk like a messed up Mississippi girl who slurs words and make some up in the pulpit? I didn't know algebra or geometry will will will Well, I didn't know we will Mr. Fred moment. I didn't know we will. But one thing I know the same God that started the good work. The same God that showed me I'm not a victim to life. But I am a victim the big I'm not a victim of circumstance. But revelation, the same job that started it is also the same God devil finishes somebody say bring on the big sack somebody say you don't have a clue you're sitting next to. And you say how power watch. It's activated by belief in four minutes. I'm giving it to you how and then I'm going to release you to Roscoe in four minutes, you don't be changed. Okay? If you want sushi at Spa go go there. In four minutes, your life is going to be changed. Look at somebody say you're not going to recognize me in 10 minutes from now. Here's what he says. Luke chapter 12. Write it down. Verse 22, through 32. He says, Well, why are you worrying about your life? Take no thought what you should eat, what you should drink what you're wearing tomorrow. And those are important things? How am I going to eat? How am I gonna get dressed? How am I gonna pay the mortgage? How am I gonna feed the babies? How am I gonna go on a date? How am I gonna find the man? Those are important things. And God says Don't worry about the small things. He said, trust me with your ordinary, give it over to me. God said if you stop worrying about the small things, I'll take care of those. So you can focus on the big things. Somebody say the big is getting ready to come. And here's what he says. He said, Don't worry, take no thought. And here's what I love verse 29, he says, do not have an anxious mind or doubtful mind. And the Greek means this to be suspended in midair. It means to fluctuate. In other words, he says Why is your mind everywhere? Why are you trying to micromanage things that I've already told you that I'm going to take care of? Why are you trying to make everything happen? When I've already said that I'm big enough to do the job without all your help? Why don't you just learn to graduate from

faith and begin to trust me, God saying let me take care of your ordinary. Let me take care of the small things. And then together you and I will do big things God wants to release big in your life if you'll stop micromanaging all the little things and worrying about all the small things he said look at the bird. The sparrows he said they they don't worry about how they're going to eat or what they're going to drink. When's the last time you saw a stressed out bird? God says it as soon as that is not going to happen. He said if you don't see a stressed out bird, why are you getting all stressed out? Here's the word for you. Proverbs chapter three, trust the Lord with all your heart and lean not to your own understanding. God is telling you cast your care upon me, give it over to me. And I can concede with Psalm chapter nine, verse 10, those that know the name of God have learned to trust him. And when they learn to trust Him, they find out that God will never fail them. See, when you know that, you know that, you know, he's not some figment of man's imagination pie up in the sky, Big Chief up there.

36:08

But God has an intimate

Paula White-Cain 36:10

relationship, that he's watching over all the small aspects of your life, so much so that he'll give you every desire of your heart. If you desire it, he'll bring it in. If you dream it, he'll bring it to pass. If you'll speak it, he'll see it happen. God wants you to trust him. Stop fretting, stop worrying. I feel like preaching just a little bit. Stop trying to micromanage, stop trying to hold on the things that you should let go of give it over to God and start walking in the big because as long as you're worrying about the little things that are holding you back, then you are suspended and your mind is everywhere. And when your mind is everywhere, you fluctuate between faith and flesh between what God said and what my situation said, what God says what my situation says. And God says I can do all things. My situation said but I don't have anybody for me, but they're talking about me. I don't have two pennies to rub together. But you can birth the business, you can start the company, you might be just a kid with an idea. Come on Microsoft but you can do it and be a world changer and a history maker. You might be living in a trailer and labeled as a messed up Mississippi girl. But I'm going to raise you up and you will see lives change and transform. I can you do it face says I can be it. I can have it. I can do it. Situation says I don't think so he says and why is your mind going everywhere. Put your mind and focus. Focus on your faith. Focus on what God has said. Because the only reason you're going to miss the big is if you fail on a focus. Come on, bro. Focus has caused more failure than anything else. When you get your your teeth in it like a pit bull with lipstick. I believe what you're saying God, and nothing can distract you, then you better get ready for the big

somebody said the biggest coming, shake, bring it bring Can't you see it, say the biggest coming up, I'm bringing the big the biggest coming no more clutter, I'm clearing the clutter. And here's what James says In conclusion, James one says, when you have those fluctuations where your minds everywhere, faith, flesh, hey, flesh, faith, flesh, and see that's why you need God. Peter, this mighty man of God, Petra, his name means rock. Simon means water flaky. His name was Simon Peter, all of us have two sides in us a flaky side flesh Lee and a rock side, a god side. And he said, When Jesus came to me said, he said Simon, Simon, he didn't speak to the gods side and him. He spoke to the flaky flesh side, I prayed for you that your faith, that picture only inside of you fail you not. And God's saying stop looking at your situation. And look at the picture that he put on the inside, because he will never fail you. And if God spoke big, big shall come to pass. And I feel

39:26

it in this place. I feel

39:28

it in this place. And here it is.

Paula White-Cain 39:31

Here's the closing statement Ready? Here it is. So he says when you're double, he says when you're fluctuating between faith and flesh, you are like the waves tossed to and fro on the sea. And that man ought not to think he can get anything from God, not because God doesn't have it, or God doesn't want to give it to you. But because he's unstable, in all his ways. You see, when you get too much clutter in your heart, in your spirit, make proud your life and create john, you do not have the clarity to function, I feel God in this place right now. And so you miss your moment, because life is too noisy, you're too distracted, to be able to have clarity, for the big to be birthed in your life. But today, if you want to make a decision, that power, there's some things I've been trying to force on those size two G's. I've been holding on to some things for 20 years. There's some people that I need to let go. There's some, there's some old ways of thinking that I need to let go of. There's some labels, there's things you don't, I still think that there are things that people say about me, I need to let go of, I might be vulnerable in that area. But I'm not going to be a victim to that area. And I'm going to let go of it today. See there are people here that they won't even go out on a date, because they think that they're ever going to be with is going to abandon them, hurt them, abuse them and leave them are you they'll use men as victims, they'll use their body as a weapon. I don't know who I'm speaking to right now. But you

were hurt by one person, and you think everybody's gonna hurt you. But God's saying, Let go of that. There's somebody here that right now, you think you're going to struggle the rest of your life, just because your grandma was poor and Mama was poor, doesn't mean you're going to be poor the rest of your life, let go of that mentality, I want you to see the big, I want you to embrace the big, there's some people here, you keep holding on to old associations that are pulling you back and pulling you down, you're going to have to serve a notice, say, I'm sorry, I love you. But during the season, I gotta let go of you. Come on, I gotta get rid of it. I can't keep Chuck. I can't keep trying, when my big toe won't even go in to put on something that won't fit my life anymore. Because I recognize that holding on to this, I'm missing my bat. And there's a bigger that. And so here it is. If you do not get rid of the clutter, you will not be able to manage your life effectively. But the decision is yours. If you'd say, Paul, I want to get rid of the junk in my life, I'll make a conscious decision to let go of some things that are junk. And I need God to help me. The moment you stand up on your feet, you are standing at attention where angels begin to company you the moment you stand on your feet, I believe that God says you took your step I'm taking mine. If you'd say there's something I need to let go of an old way of thinking a relationship, you better stand up right now. Surrender your small and believe that what you've ordered God has already sent somebody say I'm receiving the big I'm receiving it. I'm receiving the big and somebody would say in fact, everybody standing right now, grab the person stand next to you. Somebody say well, Paula, what's been happening? Where did my Oh to go? Where did my 2003 go? And my life is just passing me by? And where did Oh, for going old five? lacking to tell you don't be discouraged? Because all that was happening during those years? See those people had to they had to do what they did to you. Because it pressed you into the presence of God in a stronger way. Everything in your life set up by God. And you say What happened? All that's been happening the last several years is God has been clearing the clutter. He's been clearing the clutter. Because if that was that was your best friend. That was your best friend for seven years. And you didn't ever think you'd have a falling out? God was just clearing the clutter, saying not that they're a bad person or anything else. But I'm taking you to a different season. So I've been clearing the clutter. Since he Why did he hurt me? Why do you break my heart God was just clearing the clutter. He's getting right. It's not saying that good. He's not saying they're bad. He's just saying they don't fit your life for the purpose I have for you for the season of big and don't cry over yesterday, when your tomorrow is a whole lot better. And God has the big for you. And all you have to do is begin to embrace the big The moment you stood on your foot, all of heaven stood at attention. Angels begin to bring in assignment harvest begin to come doors begin to open because heavens been talking about you. And the moment you stood up you made a decision god I'm gonna do my part. Now you do your part. I'm trusting you. I'm trusting you in my ordinary. So I can walk in my big. I want you right now Father in the name of Jesus to do what only you can do send angels to the north, the South, the east, the West, open doors be big in our life. Let us have the strength and the

ability to clear out the clutter to remove the excess baggage and every weight that goes so easy this set us so that we will soar we will run and not be weary we will walk and not faint. And this time next year, we will stand back and look at the grand scale life. Because we had a grand scale moment with our date with destiny and Los Angeles. As you send a voice to the Claire, it's time to clear the clutter. Because the biggest coming into our life. And so we come in agreement. And we thank you right now for doing what you can do. Give us the strength. Give us the wisdom. Give us the discipline, give us the discernment. And we dig deep within the clutter. And we say get out of our way. Come on, move some things, release that hand and start moving some things say fear you got to be moved anxiety, you gotta be moved. mindset. You gotta be moved. Bad associations. You got to be moving. Start moving it, start moving it I know some of it's hard. Start moving a couple of short moving it and anxiety you're leaving my life right

46:04

now. Come on, stop moving it out of the way. There's no

Paula White-Cain 46:07

fear, you're leaving my life right now. Poverty, you're leaving, come

46:11

on for 30 seconds, move it out of the way. Move it out of the way. Move it out of the way I know it's been a struggle. I don't deny the struggle, but

46:23

it's over the

46:27

last day of struggle

Paula White-Cain 46:30

you have had is

46:34

is not behind you the rest of your life.

Paula White-Cain 47:21

He said move that place. I know you are wounded. And I'm not denying the fact that you are hurt. But move the self pity. Get out of their self pity. I'm not gonna feel sorry for myself, but the rest of my life.

47:38

The victim mentality.

Paula White-Cain 47:41

Now, in 30 seconds you are going to add to bear trophy, moving it and then you're going to receive the big and then I'll pray over you and you're going to go to Ross goes Move it, move it, move it,

48:15

move it, move it.

Paula White-Cain 48:16

Can you see it? Can you see it? Can you see your life with that anxiety? Can you see it without fear? Can you see it without poverty? Can you see it without anxiety? Can you see it without those? Come on? Can you see it without the way I want you to say here comes the big Come on. Here comes the big Here comes the peace of God. Here comes the wisdom of God. Here comes the provision of God. Here comes Come on Come on.

48:48

Come on, bring it on.
