

# Online Small Groups

## What will we discuss?

Like most of our Small Groups, we'll be discussing the message from Sunday morning. Each week, your group leader will send an invite link to the online chat, as well as the Sunday Recap video (about 3–5mins). Watch the video beforehand, and come ready to discuss the message and share what's on your heart.

## Getting started:

- Go to [thevista.tv/groups](https://thevista.tv/groups), and select "Join an online Small Group"
- Choose the meeting time that works best, and then select "Join this group"

Your leader will email you an invite link before your meeting begins

- Before your first meeting, download zoom on your computer at [zoom.us/download](https://zoom.us/download) or on your smartphone. (You do not need to create an account.)

## Video/Audio Tips:

- It's best to use a computer for stability. If using a cell phone, find a place you can rest your phone like on a stand or something on your desk.
- It's best to be in "Gallery View" so you can see your entire group. You can switch by clicking Gallery/Speaker View on your computer. On your phone, swipe all the way to the right.
- Utilize good lighting. You can test this beforehand by opening your camera app on your phone/computer.
- Use headphones if possible
- Mute when not talking to cut down on feedback
