

Communication

There are people who have had great ideas – great vision – great purpose. But they don't get others involved.

Without communication, no one is going to get involved in the vision.

our definition of communication

communication is the ability to implant the vision in others.

Vision and communication work together.

1) – first you have to have a vision , a purpose;

2) – and then you begin to communicate it.

As you get other people involved, you begin building a team to bring the vision to pass.

examine yourself: *lack of vision, or purpose, means lack of ambition, lack of creativity, and lack of action.*

Vision is the motivation – it's the drive.

vision – a mental picture of the future state.

Vision is the ability to see your dreams, your goals, and your desires before they exist in the natural.

2 Corinthians 4:18 - While we look not at the things which are seen, but at the things which are not seen: for the things which are seen are temporal; but the things which are not seen are eternal.
