A SERIES ON DANIEL

REFLECTION QUESTIONS

What current events or personal struggles make more sense when you consider there might be spiritual forces at work behind them?

Where do you see evil seemingly "winning" right now—and how does it challenge or comfort you to know that even this fits within God's sovereign plan?

When have you been tempted to stop "standing firm" because the wait feels too long or the battle too intense?

How does the promise that your name is "written in the book" (12:1) affect the way you face uncertainty and opposition today?

If invisible spiritual battles are shaping visible world events, how should that change the way you pray, engage with news, or respond to cultural chaos?
