Right Doctrine, Right Life | Discussion Guide

How has God's mercy changed the way you live? Where could your gratitude for Jesus become more evident in how you treat others this week?

Who benefits from the way you live out your beliefs? What practical step could you take to care for someone in your family, church, or community?

When have you allowed a personal preference to become a spiritual priority? How can you determine whether your position comes from Scripture or your own expectations?

How do you respond when someone challenges your attitude or behavior? What would it look like to receive that feedback with humility rather than defend yourself?

When can separating from someone help preserve a church's health? How can we take that responsibility seriously while still desiring the person's repentance and restoration?
